

## **Rime of Polybius The Thinker**

Believe can I not

The truth of life

Ultimate existence, rid of strife

Achieve, I will not

Life beyond this I cannot perceive

The truth none can acquire

Life's secret burning fire

This is all that I believe

Reality is nothing true

The truth is what you cannot see

I know the truth is not free

It comes with a price if only you knew

Night and day are but the same

An endless dance of moon and sun

God alone knows when it's done

In reality, all is one and the same
